

Industrial visit at “ASPEE Group of Companies”, Bilimora

Organized by,

Mechanical Engineering Department on 5th September 2018

The second year and final year of Mechanical Engineering students visited to ASPEE Group of Companies at Bilimora plant on dated 5th September 2018 and about 106 students with four staff members: Prof. Dr. H. S. Patil, Dr. D C Patel Prof H B Patel and Brijesh Patel visited the plant. ASSPEE is leading group of manufacturing the Agriculture Sprayers, Dusters and other Appliances needed for agriculture and public health with the help of its own R&D department. ASPEE is having its in-house facilities for manufacturing of various parts of agro equipments and we visited all departments starting from store to final product development, which includes tool room with CAD / CAM, Wirecut m/c, Milling m/c, EDMS, Injection moulding machine shop; Blow moulding shop; Machine shop having single spindle Automats, SPMS, Turret lathes & Sheet metal fabrication facilities; Inspection & QC Department. We also have fruitful meeting with managing director Shri. Suman Patel and discussed how could be plan for vocational training of pre-final year students and placement of GET in future for mechanical engineering students.
