Automobile Engineering Dept.

Industry Visit Report **Date -30th Sept. 2019**

Industry visit on 26th sept. 2019 to Swadesh Udyog, GIDC POR, Vadodara, Gujarat for 5th semester students.

Faculty Name – Asst. Prof. Mayur Jalanapurkar & Asst. Prof. Kenal Tandel

The objective of this visit for students was to get exposure to industry and modern technologies used in industry as well as to get practical knowledge of principles studied in theory of **academic subject *Automotive Manufacturing***.

From this visit, students had observed & learned ongoing operations like punching process on different press punching machines, welding processes like TIG, MIG, Spot welding, lathe machining process, tube bending process on bending machines, grinding process, component finishing process & others so on.

This visit was really useful & very knowledgeable for students.
